SOFTWARE ENGINEER

matthew.b.montejo@gmail.com || 909-456-0203 || [LinkedIn](#) || [Github](#) || [Portfolio](#) || San Francisco, CA

Technical Skills || React|Redux|Ruby on Rails|JavaScript |MERN Stack|Bootstrap|MongoDB|AWS|

SQL|SQLite3|PostgreSQL|Vanilla JavaScript|HTML|CSS |Git|

PROJECTS

myFridge || MERN|React|Redux|JavaScript|MongoDb|Node.js|Express.js|Mongoose|

[GitHub](#) || [Live](#)

A culinary assistant, implementing a ChatGPT-based API to craft personalized recipes from ingredients users already have.

- In a team of 4, served as the back-end lead, utilizing feature branch Git for version control to minimize merge conflicts and launch the app within 10 days.
- Developed RESTful API using Node.js and Express.js to handle user and recipe data, enabling features like saving, editing, and deleting recipes tied to individual user accounts.
- Established asynchronous routes on the frontend using React Thunks middleware, facilitating seamless communication between the frontend and backend.

Tapa Designs || Full - Stack|React|Redux|Ruby on Rails| jBuilder|Amazon S3|CSS3|Render|

[GitHub](#) || [Live](#)

An ecommerce clone of TopoDesigns, built to allow users to browse products, leave reviews, and add items to their cart

- Built a full-featured e-commerce platform from the ground up, featuring dynamic search capabilities and secure authentication using Bcrypt
- Formulated an efficient back-end architecture using Ruby on Rails and PostgreSQL, focusing on RESTful APIs for seamless data interactions.
- Utilized asynchronous AJAX requests and Redux for state management to create a dynamic shopping cart experience.
- Implemented full CRUD capabilities for both the shopping cart and user reviews, allowing for a versatile and interactive user experience.

Global Dawg || Vanilla JavaScript|HTML5 |CSS3|

[GitHub](#) || [Live](#)

A fun web application to learn about the world's top dawgs and if curious learn about any other dawg.

- Integrated theDogAPI using async/await to fetch a variety of dog images and information, enriching the content available in the application and ensuring a responsive user interface.
- Developed an interactive grid of 8 clickable dog images and a dropdown menu featuring all available dogs from theDogAPI, offering users multiple ways to engage with the content.

WORK EXPERIENCE

Cupertino Electric, INC || Foreman | San Jose, CA |

November 2016 – October 2021

- Skill in overseeing projects from start to finish, ensuring they are completed on time and within budget.
- Ability to lead and manage a team of electricians, including task delegation and performance evaluation.

Rosendin Electric || Journeyman Wireman | San Jose, CA |

July 2015 – November 2016

- Technical proficiency in reading one-line diagram, reflected ceiling prints, and equipment specifications, enabling smooth project execution
- Installed diverse wiring systems as per project documents and ensured adherence to code standards.
- Collaborated with other trades to manage time, ensure safety, and boost production efficiency.

EDUCATION

App Academy || Full Stack Web Development | San Francisco, CA |

Graduated 07/2023

National Joint Apprenticeship and Training Committee || Journeyman Electrical Wireman | Dallas, TX |

Graduated 07/2011
